NO 7 ODA VILLAGE SCHOOL

Donated, masonry, solar powered, metal roofed building. Afternoon kindergarten with 1 hour English night classes at 4, 5 and 6pm are also offered. Students from surrounding villages attend this most remote ODA school.

There is plentiful employment around the Tourism Industry in Siem Reap District, however English is the primary requirement. ODA English schools were founded to address this need for outlying village subsistence farming families to assist youngsters to improved futures.

All funding must be generated by ODA and that is a constant challenge. Art sales at ODA Gallery, overseas art exhibitions and fundraisers, plus the very valuable donors who support some of our outlying schools and recurring donations on the ODA website contribute to fund operations. Village and Commune Chiefs constantly approach ODA to assist more children to education.
